NAVATRA

Monthly Magazine on Current Events

Vol. - 5 >>> Issue - 4 >>> October, 2021

Preface

Dear readers, we have started edristi English edition as well since August, 2015. We are hopeful that it will help us to connect to the broader audience and amplify our personal bonding with each other.

While presenting Day-to-day current affairs, we are very cautious on choosing the right topics to make sure only those get the place which are useful for competitive exams perspective, not to increase unnecessary burden on the readers by putting useless materials. Secondly, we have also provided the reference links to ensure its credibility which is our foremost priority. You can always refer the links to validate its authenticity.

We will try to present the current affairs topics as quickly as possible but its authenticity is given higher priority over its turnaround time. Therefore it could happen that we publish the incident one or two days later in the website.

Our plan will be to publish our monthly PDF on very first day of every month with making appropriate modifications of day-to-day events. In general, the events happened till 31th day will be given place in the PDFs. The necessity of this is to ensure the contents factual authenticity.

Reader's satisfaction is our utmost priority so requesting you to provide your valuable feedback to us. We will warmly welcome your appreciation/criticism given to us. It will surely show us the right direction to improve the content quality. Hopefully the current affairs PDF (from 1st September to 30th September) will benefit our beloved readers.

Current affairs data will be useless if it couldn't originate any competitive exam questions. E-Dristi has been very successful in that direction. Almost all the questions from UPPCS and other examinations have been asked from our materials. You can verify that by matching the question papers and e-Dristi contents from yourselves.

National Manish Narwal Wins Gold

Question : Who won gold medal in shooting in Tokyo Paralympics ?

(a) Manish Narwal (b) Singhraj Adhana (c) Sisodia (d) Abhinav Bindra

Patents (Amendment) Rules, 2021 Notified

Question : “Patents (Amendment) Rules, 2021” has recently(September 2021) been notified. Accordingly, how much reduction has been made in patent fees for educational institutions ?

a. 80 Percent b. 70 Percent c. 60 Percent d. 50 Percent

Ans. a.

Related facts —

- “Patents (Amendment) Rules, 2021” has recently(September 2021) been notified.
- **Key points —**

1. Patent Fees For Educational Institutions Reduced by 80 Percent
2. This amendment has come into force with effect from September 21, 2021.
3. Moreover, Patents Rules have been amended in 2016, 2017, 2019 and 2020 to achieve the objective of removing procedural inconsistencies and unnecessary steps in processing of applications thereby speedup grant/registration and final disposal.
4. By amending the Rules, the procedures are made more compact, time-bound, user-friendly and compatible for e-transactions.
5. **In this regard, following initiatives have been taken by the Department:**
 - i. Augmentation of manpower by recruiting new examiners.
 - ii. Making process of applying and granting patents completely online.
 - iii. Hearing of cases in Patents through Video-Conferencing for speedy and contact-less proceedings.
 - iv. Dynamic redesigning of website and real time based hassle free dissemination of IP information to stakeholders.
 - v. Encouraging the digital process for applying & granting Patents.
 - vi. Scheme for Facilitating Startups Intellectual Property Protection (SIPP) has been launched to provide facilitators to Startups for filing and processing of their applications. Professional charges of such facilitators are reimbursed as per provisions under the SIPP scheme.
 - vii. The mechanism to lodge feedback/suggestions/complaints in respect of issues related to functioning of the IP offices has been set up in IPO website for the benefit of stakeholders. A team acts promptly on stakeholders’ suggestions/grievances and communicate appropriate response through e- mail.
 - viii. DPIIT through Cell for IPR Promotion and Management (CIPAM) and in collaboration with the office of CGPDTM is regularly engaged in dissemination of information and knowledge to IP stakeholders by way of participation in awareness activities in IPR, conducted for

schools, universities, industries, legal and enforcement agencies and other stakeholders in collaboration with industry Associations in the country

Rajasthan Compulsory Registration of Marriages Act, 2009

Question : The Rajasthan State Legislative Assembly has recently(September 2021) passed a bill to amend Rajasthan Compulsory Registration of Marriages Act, 2009. Accordingly, Which of the following statement is correct ?

- a. State government accused of legalizing child marriage
- b. State government accused of legalizing conversion
- c. State government accused of making widow marriage illegal
- d. None of the above

Ans. a.

Related facts —

The Rajasthan State Legislative Assembly has recently(September 2021) passed a bill to amend Rajasthan Compulsory Registration of Marriages Act, 2009.

Key points —

1. The state government is being accused of legalizing child marriage.
2. Reason — It provides for mandatory registration of marriages, including child marriages. This dispute is related to the amendment brought in Section 8 of the Compulsory Act 2009, which states that the marriage should also be registered within 30 days, in which the bride and groom are below 18 and 21 years.
3. On the other hand, the state government has said that apart from technical changes in the old law, there is nothing new in the new bill.
4. State Law Minister Shanti Dhariwal said, “It is the Supreme Court’s decision that whether marriage is of minor or major, its registration is necessary”.
5. It is notable that in 2006, the Supreme Court ordered registration of all marriages, including underage marriages, saying it would make it easier to take action against child marriages as they enter the public record as they would become documentary evidence.
6. According to the National Family Health Survey (NFHS) data from 2015-2016, the number of child marriages has declined in Rajasthan. The state enacted the Child Marriage Prohibition Act in 2006.

Eight-lane Delhi-Mumbai Expressway

Question: What is proposed length of the world's longest highway the Delhi-Mumbai Expressway, which will be completed by March 2023, according to the recent announcement?

a) 1280 km b) 1380 km c) 1180 km d) 1432 km

Answer: (b)

Related Facts:-

- On 17 September 2021; Union Minister for Road Transport and Highways, Nitin Gadkari announced about Delhi-Mumbai Express Highway.
- He informed that Government of India is constructing the world's longest highway, that is, Delhi-Mumbai Express Highway.
- He said that the work on the eight-lane Delhi-Mumbai Expressway, a 1,380 km road will be completed by March 2023.
- The Union Minister recently reviewed the progress of work on the Delhi-Mumbai Expressway.
- **Delhi-Mumbai Expressway (DME)**
- The expressway is 1,380 km long and is being constructed for Rs 98,000 crores. The expressway passes through the six states of Delhi, Haryana, Rajasthan, Madhya Pradesh, Gujarat, and Maharashtra.
- The foundation stone for the Delhi Mumbai Expressway was laid on 9 March 2019.
- Out of the 1,380 km, contracts for more than 1,200 km have already been awarded and are under progress.
- It will improve the connectivity to economic hubs like Jaipur, Kishangarh, Ajmer, Kota, Chittorgarh, Udaipur, Bhopal, etc. and help in bringing economic prosperity.
- As it will connect cities like Ujjain, Indore, Ahmedabad, Vadodara, Jaipur, Kishangarh, Ajmer and Surat, the road also has the potential of becoming a tourist attraction in near future.
- In addition to this, the Expressway will generate annual fuel savings of more than 320 million liters and reduce CO2 emissions by 850 million Kg which is equivalent to the planting of 40 million trees.
- Over two million trees and shrubs are planned to be planted along the highway.
- Other features of the DME include two 8-lane tunnels, one tunneling through Mukundra sanctuary.
- It will be constructed in the manner, without disturbing the endangered fauna in the region for 4 km.
- The second 4 km 8 lane tunnel that will pass through the Matheran eco-sensitive zone.

- **Advantages of DME**
- **Improvement in connectivity:**
 - The Delhi-Mumbai expressway will connect Haryana with Rajasthan, Madhya Pradesh, Gujarat, and Maharashtra.
 - As it will go through 6 states including Delhi, will ease the connectivity and therefore help in reducing travel time.
 - The expressway will connect urban centers of Delhi through the Delhi-Faridabad-Sohna section of the corridor along with a spur to Jewar Airport and Jawaharlal Nehru Port to Mumbai through a spur in Mumbai.
- **Boosting the industrial growth:**
 - The Delhi-Mumbai Expressway will change the future of the Mewat region and will bring it on the industrial map of the country.
 - It will link the two most important freight centres of the country, and will boost economic activity and generate great employment opportunities.
- **Reduce environmental Degradation:** On becoming the highway operational, check in air pollution in Delhi NCR will automatically come around
 - It will also solve the problem of traffic jams. Further, reduced traffic congestion will improve the air quality in the city.
- **Travel time reduction:**
 - DME will reduce travel time between Delhi and Mumbai from nearly 24 hours to 12 hours and shorten the distance by 130 km.
 - The existing Delhi-Mumbai National Corridor is one the busiest routes of the national highways network.
 - It witnesses average traffic of more than 80,000 PCUs per day. The Delhi-Mumbai Expressway will provide an alternative to connect Delhi with Vadodara.
- **Unrestricted movement of wildlife:-**
 - The expressway is the first in Asia and only the second in the world to feature animal overpasses to facilitate unrestricted movement of wildlife.
 - The DME will have 3 animal and 5 overpasses with a combined length of 7 km dedicated for unencumbered wildlife movement.

Golden Jubilee of Statehood of Himachal Pradesh

Question : On which date will President of India grace and address the special session of Himachal Pradesh Legislative Assembly ?

- a. September 17, 2021 b. September 27, 2021 c. September 19, 2021
d. None of the above

Ans. a.

Related facts —

- On September 17, 2021, the President of India will grace and address the special session of Himachal Pradesh Legislative Assembly being organised on the occasion of Golden Jubilee of Statehood of Himachal Pradesh.
- On September 18, 2021, he will grace the valedictory ceremony of the Indian Audit and Accounts Service Officer Trainees of 2018 and 2019 batches at the National Academy of Audit and Accounts, Shimla.
- **History of Himachal Pradesh —**
- **Pre & Proto History —**
- More than 1.5 million years ago man lived in the foothills of Himachal Pradesh, viz in the Bangana valley of Kangra, Sirsa valley of Nalagarh and Markanda valley of Sirmour.

- The foothills of the HP were inhabited by people from Indus valley civilization which flourished between 2250 and 1750 B.C.
- Migrants came in the form of Mongoloid people known as Bhotas and Kiratas.
- Later on came the most important wave of migrants in the form of the Aryans who left their Central Asian home.
- These laid the base of history and culture of Himachal Pradesh.
- **Post Independence Period —**
- The Chief Commissioner's province of Himachal Pradesh came into being on 15th April, 1948.
- It became a part C state on 26th January, 1950 with the implementation of the Constitution of India.
- Bilaspur was merged with HP on 1st July, 1954.
- Himachal Pradesh became UT on 1st November, 1956.
- Kangra and most of the other hill areas of Punjab were merged with Himachal Pradesh on 1st November, 1966 though its status remained that of a Union Territory.
- On 18th December, 1970 the State of Himachal Pradesh Act was passed by Parliament and the new state came into being on 25th January, 1971.
- Thus Himachal Pradesh emerged as the eighteenth state of Indian Union.
- It has come a long way since then. HP has seen a number of full-fledged governments which have led the state towards economic self-reliance.

First-ever Government Unani Medical College & Hospital in Jammu & Kashmir

Question : In which district is the first government 'Unani Medical College and Hospital' of the Union Territory of Jammu and Kashmir located ?

- On 12 September 2021; India's largest open-air fernery was inaugurated in Uttarakhand's Ranikhet.
- The fernery is home to a large number of fern species, some of which are endemic to the state, some hold medicinal value.
- The fernery also has some threatened species that demand care and conservation.
- It should be known that India is home to a plethora of plant and animal species. The geographical and weather condition of the country is apt for the growth and development of a variety of species.
- The natural forest of Uttarakhand has been known to host different kinds of plants and animal species.
- The forest in Uttarakhand is a secret hub for flora and fauna, from unique black-bellied coral snakes to cryptogamic species.
- This center has been developed for conservation of fern species and also to create awareness about their ecological role and promote further research.
- **The new Fernery of Ranikhet**
- This is one of the biggest ferneries in India inaugurated in Uttarakhand.
- The fernery of Ranikhet has the largest collection of fern species, second to only Jawaharlal Nehru Tropical Botanical Garden and Research Institute (TBGRI), Thiruvananthapuram.
- Remarkable thing about Ranikhet fernery is that, it is the country's first open-air fernery in natural surroundings which is not under any poly-house/ shade house.
- The Ranikhet fernery spreads over four acres of land at an altitude of 1,800 metres.
- A seasonal pahadi nala also passes through it, which provides adequate moisture as ferns require shade and moisture to grow and propagate.

The first-ever exhibition in India dedicated to a selection of Indian birds

Question : Which institution recently(September 2021) presented the first-ever exhibition in India dedicated to a selection of Indian birds ?

- a. Delhi Art Gallery b. Bombay Art Gallery c. Hyderabad Art Gallery
d. None of the above

Ans. a.

Related facts —

- In honour of the unknown Indian masters commissioned by the East India Company in the late 18th and early 19th centuries, DAG presents the first-ever exhibition in India dedicated to a selection of Company Paintings of Indian birds, entirely from the gallery collection.
- The exhibition is scheduled from 4 September to 6 October 2021.
- Combining the delicacy and details of Mughal atelier-trained artists with the refinement and rationalisation of European art, the works signify a hybrid Indian art of rare and exceptional beauty, a style unique to the Indian subcontinent whose patronage was almost entirely British.
- The birds depicted in this exhibition include raptors, game birds, coastal waders and many woodland and forest birds, some very familiar and several that are now scarce.
- **About DAG —**
- Established in 1993, DAG (formerly called Delhi Art Gallery) showcases its diverse collection of Indian art through local and international museums, art galleries, exhibitions, publishing, archives, knowledge-based lineups, and programmes for the sight-impaired.

GROWTH – India Telescope

Question: In which of the following state of India The GROWTH – India telescope, a joint project of Institute of Astrophysics (IIA) and IIT Bombay has been installed?

a) Maharashtra b) Ladakh c) Himachal Pradesh d) Goa

Answer :(b)

Related Facts:-

- On August 30, 2021; the Indian Institute of Technology Bombay signed a Memorandum of Understanding (MoU), with the Indian Institute of Astrophysics (IIA).
- The MoU, which is Valid for a period of five years, has been signed between the two, for extending the ongoing collaboration for operations and scientific utilisation of the GROWTH – India Telescope.
- **The GROWTH – India telescope-**
- The GROWTH – India telescope was set up jointly by IIA and IIT Bombay under a project and became operational in 2018.
- It is a 0.7m wide-field telescope set up in Ladakh as a joint partnership between IIA and IIT Bombay.
- The project has been supported by DST-SERB and the Indo-US Science and Technology Forum.
- Under this partnership, the organizations agreed to jointly continue the operations of the project.
- IIT Bombay students will continue to remotely use this robotic telescope, and will use and develop tools for observations and data processing.
- The operations of the GROWTH – India telescope are supported by generous contribution from IIT Bombay Alumni Class of 1994.
- This interdisciplinary project will emphasize to undertake continuous studies of cosmic sources that have rapidly-varying properties.

- Cosmic sources under the study of this telescope are emission from gravitational wave events, young supernovae and near-earth asteroids.
- It is the country's first fully-robotic optical telescope and one of the few such facilities present outside of Europe and the USA.
- It has been instrumental in the research work carried on by IIT Bombay.
- IIT Bombay students trained with this telescope collaborate with astronomers around the world.
- The closest known asteroid (2020QG), that flew past Earth without impacting it, was discovered by two such students recently.

Snow Leopard and the Black-Necked Crane

Question: Recently which of the following state/UT has declared the snow leopard and the black-necked crane as its state animal and state bird?

a) Chandigarh b) Ladakh c) Daman and Diu d) None of these

Answer: (b)

Related Facts:-

- On 31 August 2021; the Union Territory of Ladakh has declared the snow leopard and the black-necked crane as its state animal and state bird, respectively.
- Both snow leopards and black-necked cranes are rare species great attraction value for tourists.
- Especially the snow leopard at the Hemis National Park, for which the tourists come even in winters.
- Black-necked cranes have a great cultural significance and are mentioned in the local folk stories and folk songs.
- The Snow Leopard Conservancy India Trust has been working for snow leopards for more than three decades now.
- According to World Wide Fund-India (WWF-India), there is a significant threat to the successful breeding of black-necked cranes.
- This threat comes from the damage to the eggs and chicks caused by feral dogs owned by armed forces as well as by the local nomads.
- Another threat to the bird is the loss of their habitat, the human pressure on the wetlands, and the primary habitat of cranes.
- The government agencies, along with the WWF-India for over one decade, have been working towards conserving high altitude wetlands with the black-necked crane as a priority species in the Ladakh region.

a) IIT Mumbai b) IIT Delhi c) IIT Madras d) None of these

Answer: (c)

Related Facts:-

- IIT Madras is in process of developing an online platform called e-Source that will be used to tackle electronic wastes (e-waste).
- The e-Source will be used to tackle e-waste by linking stakeholders of the formal and informal economy.
- The e-Source will act as an exchange platform to serve as an online marketplace for Waste Electrical and Electronic Equipment (WEEE).
- It will also act as a formal supply chain between several stakeholders, including buyers and sellers.
- This initiative is being headed by Indo-German Centre for Sustainability (IGCS).
- According to IGCS team, problem of e-waste can be resolved by connecting buyers and sellers of Used and Waste electronic equipment without compromising their interests.
- e-Source initiative need of the time-
- To formalize e-waste handling and management, a novel open-source solution is needed.
- The e-waste either completely stripped down to get precious metals and other high-value materials or are dumped in landfills, without exploring potential re-use.
- Unscientific recycling methods e-waste is harmful for waste handlers as well as environment.
- As per a study, world generates 53.6 million tonnes of e-waste annually and expected to increase sharply in future.
- India is the world's third-largest producer of e-waste; such waste is pressing issues in India.
- Country generated 38 percent more e-waste in between 2019-2020.
- India is a concern regarding e-waste-
- In India, only 5 percent of e-waste is recycled responsibly.
- Advantages of e-Source
- Through the e-Source initiative a detection system will be deployed, which uses a combination of image processing and natural language processing techniques.
- In order, through these techniques, it will strive to get the product information and upload it to the database.
- It can, by the means of prescribed standard protocols, be furthermore self-certified.

Lunar crater at the Moon's South Pole named after Matthew Henson

Question: Who was Matthew Henson in whose name the International Astronomical Union (IAU) has named a lunar crater?

- a) Astronaut b) Geologist c) Arctic Explorer
d) Physicist

Answer: (c)

Related Facts:-

- The International Astronomical Union (IAU) has named a lunar crater at the Moon's South Pole after Arctic explorer Matthew Henson.
- Matthew Henson was a black man who was one of the first people to reach the top of the world in 1909.
- Henson's name for the lunar crater was proposed by Jordan Bretzfelder.
- Jordan Bretzfelder, an intern at the Johns Hopkins Applied Physics Laboratory (APL) in Laurel, Maryland.
- Henson Crater and the Artemis Program:-
- The Artemis program was initiated by NASA with the aim of landing lunar explorers at Henson Crater.
- They will be selected from NASA's increasingly diverse astronaut pool.
- Hansen Crater is located at the south pole of the Moon between Sverdrup and de Gerlache craters.
- The program provides the foundation for studying planetary processes as well as building the infrastructure to advance human exploration on the Moon and Mars.
- It should be known that Henson was a seasoned explorer and skilled carpenter and craftsman.
- He was involved in about a dozen Arctic expeditions that were conducted by Robert Peary.

India's Economic Growth, Q1 2021-22

Question: What is India's Gross Domestic Product (GDP) growth rate for the first quarter of 2021-22?

(a) 20.1 percent (b) 22.5 percent (c) 23.2 percent (d) 21.4 percent

Answer: (a)

Related facts:

- As per data released by the National Statistical Office, Indian economy has registered a record GDP growth of 20.1 per cent in the first quarter(Q1),April-June 2021.
- The GDP has contracted by 24.4% last year in first quarter following strict national lockdown due to the Covid 19 pandemic.
- Gross Value Added (GVA) in the economy during the April to June period rose 18.8%,from a 22.2% dip in the first quarter of 2020-21.
- GVA from agriculture, forestry and fishing, the only sector to grow amid last year's national lockdown, picked up pace to grow 4.5% in Q1 this year from 3.5% in Q1 2020-21.
- Overall GVA in Q1 was still 7.8% lower than the first quarter of 2019-20, at ₹30,47,516 crore, while GDP remained 9.2% lower, indicating that the economy still has some way to go before it returns to activity levels prevalent prior to the pandemic.
- Electricity, gas, water supply and other utility services, whose GVA grew 14.3% in Q1 of 2021-22, compared with a 9.9% fall last year, was the only sector along with agriculture, forestry and fishing, to recover beyond the pre-pandemic levels of 2019-20.

- The first quarter GDP is even lower than that of the first quarter of 2018-19.

Defense/Science Short Notes

Raytheon Hypersonic Weapon

Question: Which of the following country recently tested the Raytheon hypersonic weapon, in partnership with the Defense Advanced Research Projects Agency (DARPA)?

a) USA b) Russia c) China d) India

Answer: (a)

Related facts:-

- On 27 September US defence department the Pentagon announced that the United States has successfully tested a Raytheon hypersonic weapon.
- It is an air-breathing hypersonic weapon capable of speeds faster than five times the speed of sound.
- The mission was completed by the US Air Force, in partnership with the Defense Advanced Research Projects Agency (DARPA).
- It was the first successful test of this type of cruise missile since 2013 by the United States of America.
- The free flight test of the Hypersonic Air-breathing Weapon Concept (HAWC) took place around 20th September 2021.
- It has been demonstrated that the weapon is highly effective and it has strong capabilities to hit and destroy the set target.
- The mission aimed to test, among other aspects, safe separation from the launch aircraft, booster ignition and engine ignition.
- According to a DARPA press release, all primary test objectives were met.
- Built by Raytheon Technologies, the HAWC missile's engine propelled the cruiser at a speed greater than Mach 5 – five times the speed of sound.

- HAWC vehicle operates best in oxygen-rich atmosphere, where speed and maneuverability make it difficult to detect in a timely way.
- It could strike targets much more quickly than subsonic missiles and has significant kinetic energy even without high explosives.

Civil Do-228 Aircraft

Question: HAL signed a lease agreement with Alliance Air Aviation Limited for the supply of two Civil Do-228 aircraft. In which of the following state these two aircraft will be used will be used for regional operations?

a) Sikkim b) Himachal Pradesh c) Uttar Pradesh d) Arunachal Pradesh

Answer: (d)

Related Facts:-

- On 26 September HAL signed a lease agreement with Alliance Air Aviation Limited for the supply of two Civil Do-228 aircraft.
- These Civil Do-228 aircraft will be used for regional operations in Arunachal Pradesh.
- HAL's General Manager, Transport Aircraft Division, Kanpur and Head of Engineering for Alliance Air Aviation Limited signed the deal papers in Bengaluru.
- The HAL Do- 228 is a versatile aircraft well-suited for operations in the North East.
- It has the capabilities of short take-off and landing, ability to land and take-off from semi-prepared runways.
- This development has opened a new vista in civil aviation for HAL as the Company is keen in engaging more numbers of HAL Do-228.
- Speaking on the occasion, the Chief Minister of Arunachal Pradesh Mr Pema Khandu said that the connectivity will now be easier.
- He said that it was a big day for the state, as there are big geographical challenges in this vast state.

Substitute for Single-use Plastic

Question: Researchers from which of the following institute in India, recently have found a way to make a substitute for single-use plastic?

a) CSIR b) IISc c) TIFR d) None of these

Answer: (b)

Related Facts:-

- Indian Institute of Science, Bengaluru (IISc) have found a way to make a substitute for single-use plastic.
- This feat has been achieved by the Researchers from Department of Material Engineering, Indian Institute of Science, Bengaluru (IISc).
- They have found a way to mitigate the problem of accumulating plastic waste in the environment.
- According to a report by Central Pollution Control Board of India, for the year 2018-2019, 3.3 million metric tonnes of plastic waste are generated by Indians.

- The bad news is that this may well be an under-estimation of the problem. Most disturbing aspect is that of all the plastic waste produced in the world, 79% enters the environment.
- Recycling process is still not widespread in the world; only 9% of all plastic waste is recycled.
- Often there can be major harm to aquatic ecosystems by the accumulation of plastic waste.
- Plastic waste is detrimental to the environment and when this waste finds its way into the sea.
- Solution Provided by the Researchers-
- Scientists in Indian Institute of Science developed bio-degradable, leak-proof and non-toxic polymers using non-edible oil and cellulose.
- These polymers can be moulded into sheets having properties suitable for making bags, cutlery or containers.
- Chemical Procedure-
- In the process of making the biodegradable polymer non-edible Castor oil was used.
- It involves allowing them to react with the cellulose and di-isocyanate compound.
- All precursors are mixed in toluene solvent and heated at 80 degree for 8 hours.
- Then the solution mixture is poured in a teflon sheet and allowed the toluene to evaporate.
- After 12 hours, nice polyurethane sheet is obtained because of the crosslink between the functional groups present in the precursors.
- The sheets are then moulded in compression moulding to make the articles such as a bag or pieces of cutlery.

Eruptions in Cumbre Vieja volcano

Question: in which of the following country the Cumbre Vieja volcano is located?

a) Spain b) France c) Japan d) Philippine

Answer: (a)

Related Facts:-

- On 19 September 2021; eruptions started in the Cumbre Vieja volcano on the island of La Palma in the Canary Islands, Spain.

- It should be noted these eruptions started in Cabeza de Vaca, in the Montana Rajada Mountains and in the Las Manchas section of El Paso municipality.
- It should be noted that no lava has emerged since 1971 from the Cumbre Vieja volcano on the Spanish island of La Palma.
- Only it has occasionally twitched, convulsed, and rumbled, but this time it came out in furious manner.
- On September 19, at 3:12 p.m. local time rising magma from several fissures on its western flanks, tore open and an extravagant eruption began.
- Gradual course of events-
- An earthquake swarm started under Cumbre Vieja on 11 September 2021.
- It slowly migrated to the surface, with earthquakes up to around 3.5 on the Richter scale and over 25,000 recorded in the space of a 10 days.
- On 19 September 2021 the volcano started erupting, in Cabeza de Vaca and other nearby sections.
- A yellow warning was issued, covering 35,000 people in the municipalities of Los Llanos de Aridane, Fuencaliente, El Paso and Villa de Mazo.

Third Edition of Life Sciences Conclave

Question: On 17 September 2021 which of the following organisation has organised the third edition of Life Sciences Conclave?

a) CII b) CSIR c) IISc d) TIFR

Answer: (a)

Related Facts:-

- On 17 September 2021; CII organized the third edition of Life Sciences Conclave.
- Life Sciences Conclave also provides the necessary platform for stakeholders across the world to converge and embed their ideas.
- The Indian Life Sciences industry is paving the way for future growth in terms of meeting the domestic needs.
- This industry is also establishing the nation as a leader in the global life sciences landscape.
- There are still several challenges in this field that need to be addressed and it is of fundamental importance.

- There is still a grave need to re-strategize the restoration of India's position in the pharmaceutical and biotechnology landscape.
- This platform seeks to curate and create an environment conducive to help build a better future and achieve the targets the nation has set for itself.
- Principal Scientific Adviser, Government of India, Prof. K Vijay Raghavan was present at the inaugural session of the CII Life Sciences Conclave.
- He stated that reform is needed in the space of ease of doing science, regulation, university functioning in research and industry academia linkages.
- Prof. Raghavan expressed that there is an extraordinary desire to do high end research that is globally competitive.
- He said that the industry has no shortage of capital but a shortage of risk capital.
- He is of the view that there is a need to connect our lab ecosystem to our industry and bring research into our broader ecosystem.
- Our population, network of labs and the fundamental simplicity of research that is undertaken here will help India grow as compared to similarly placed countries.
- Dr Renu Swarup, Secretary, Department of Biotechnology & Department of Science and Technology, Ministry of Science & Technology
- According to Dr Renu Swarup today we have been able to see breakthrough in silos and the boundaries have gotten blurred between academia, industry and startups.
- Dr Renu Swarup is the Secretary, Department of Biotechnology & Department of Science and Technology, Ministry of Science & Technology
- Moving ahead we can hope India will not just be the pharmacy of the world but also the research lab of the world.
- There is a need to create an industry strategized research partnership platform.
- The bio-strategy document is in place that will lead India to become a USD 150 billion market by 2025.
- CII on this occasion also launched the report titled as-Taking India's Life Sciences to the Global Stage – Make in India” to fuel 4x growth in Biosimilars and Vaccines by 2026.”
- We now need to focus on how ways to encourage new IP generation and new innovative research, this will require industry collaborations with both academia and startups.
- Our focus should be on achieving scalability that is matched with sustainability, and we will at least 10,000 startups in the next 5 years.
- At the Valedictory Session, Ms S Aparna Secretary, Department of Pharmaceuticals said that in the last 5-10 years India has become a favored destination for pharma companies.
- There is a global move towards the greater diversification in this field.

ISRO to develop reusable launch Vehicle

Question: In which of the following launch vehicle, ISRO is planning to fit 1st and 2nd stage reusable boosters in future?

a) PSLV-D5 b) GSLV MK-III c) GSAT- 14 d) None of these

Answer: (b)

Related Facts:-

- The Indian Space Research Organisation (ISRO) has planned to develop a reusable GSLV Mk-III launch vehicle.
- ISRO for this purpose is working on technologies that will enable it to land the GSLV Mk-III launch vehicles vertically.
- If all goes according to plan GSLV Mk-III launch vehicles will send back their booster similar to what Elon Musk's SpaceX does
- According to a senior official, in this way ISRO will be able to recover the first and second stages.
- This will enable the space agency to reuse the GSLV Mk-III, thus helping it save money.
- V.T. Baskar, project director, GSLV Mk-III, informed that the space agency had been working on multiple mini-projects.
- He said that if we recover the first and second stages, we will have a lot of cost advantage.
- Already studies are on and mini projects have been approved for landing experiments.
- He said that they have to implement a few enabling technologies to have the capability to take a wing body or large body to land safely.
- Mr. Baskar said the ISRO was working on augmenting its technologies for landing launch vehicles.
- Landing on legs
- ISRO has also planned the Landing on legs like what SpaceX is doing.
- The agency has been optimistic to display the technological achievement in this regard within this year or the next year.

India-Nepal joint military exercise ‘Surya Kiran’ begin in Pithoragarh, Uttarakhand

Question: Surya Kiran is a Military exercise between which two Nations?

- (a) India and Bangladesh (b) India and Maldives (c) India and Nepal
(d) India and Pakistan

Answer: (c)

Related Facts:

- The armies of India and Nepal have started the 15th edition of joint military exercise Surya Kiran at Pithoragarh in the Indian state of Uttarakhand.
- The exercise was called off in 2020, due to the Covid-19 pandemic.
- The two-day joint military training exercise will validate the performance of both armies in counterinsurgency in mountainous regions.
- The Infantry Battalion of the Indian Army and an equivalent counterpart from the Nepali Army are participating in the drill.
- The Indian Army and Nepali Army would share their experiences of various counter-insurgency operations, and familiarise themselves with each other’s weapons, equipment, tactics, techniques and procedures of operating in a counter-insurgency environment in mountainous terrain.
- The joint military training will help in improving bilateral relations and further strengthen the traditional friendship between the two nations.

Climate change could displace 200 to 250 million People by 2050

Question: Which International organisation has predicted that Climate Change could displace 200 to 250 million people by 2050?

- (a) World Health Organisation (b) World Bank (c) European Central Bank
(d) Asian development Bank

Answer: (b)

Related Facts:

- Climate change could push more than 200 million people to leave their homes by 2050 unless urgent action is taken, the World Bank has warned.
- Under the most pessimistic scenario, with a high level of emissions and unequal development, the report forecasts up to 216 million people moving within their own countries across the 6 regions.
- Those regions are Latin America, North Africa, Sub-Saharan Africa, Eastern Europe and Central Asia, South Asia, and East Asia and the Pacific.
- In the most climate-friendly scenario, with a low level of emissions and inclusive, sustainable development, the world could still see 44 million people being forced to leave their homes.

- Sub-Saharan Africa has been identified as the most vulnerable region due to desertification, fragile coastlines and the population's dependence on agriculture.

Reference: <https://www.firstpost.com/tech/science/adverse-effects-of-climate-change-will-push-216-million-people-to-migrate-by-2050-world-bank-report-9970041.html>

AUKUS : A new Military Alliance to deal with China's expansion in Indo-Pacific Region

Question: AUKUS a new trilateral security partnership for the Indo-Pacific region. Which country is not part of this alliance?

- (a) Australia (b) United Kingdom
(c) Austria (d) USA

Answer: (c)

Related Facts:

- Recently, The USA has announced a new trilateral security partnership for the Indo-Pacific, among Australia, the UK and the USA (AUKUS).
- This is new military alliance to deal with China's expansion in Indo-Pacific region.
- The security grouping AUKUS will focus on advancing strategic interests in the Indo-Pacific region.
- The major highlight of this arrangement is the sharing of USA nuclear submarine technology to Australia.
- AUKUS will also involve a new architecture of meetings and engagements between the three countries.
- It will have cooperation across emerging technologies : Applied Artificial intelligence, Quantum technologies and undersea capabilities.

World's largest Plant designed to suck carbon dioxide

Question: What is the name given to the World's largest plant, designed to suck carbon dioxide?

- a) Cobra b) Orca c) Carbfix d) None of these

Answer: (b)

Related Facts:-

- The world's largest plant designed to suck carbon dioxide out of the atmosphere has now come into the operation.

- Constructed by Swiss company Climeworks and Icelandic company Carbfix the plant is known as Orca and is located in Iceland.
- Climeworks co-CEO and co-founder Christoph Gebald said that it was a big achievement to reverse climate change.
- He said that Orca, now become a reality and it is a result of concerted efforts from every stakeholder involved.
- **Working process of Orca:**
- The plant works by using industrial vacuums to suck climate-warming gases out of the air.
- Those gases are then stored underground and converted to stone within two years.
- Climeworks has said that the plant will be able to remove 4,000 tonnes (approximately 4,409 tons) of carbon dioxide every year.
- According to the company Construction on this plant began in May of 2020 using stackable, container-sized units.

OneWeb's launched another set of 34 Satellites

Question: With which of the following country Arianespace company belongs to?

a) Kazakhstan b) France c) Russia d) UK

Answer: (b)

Related Facts:-

- On 14 September 2021; OneWeb's launched another set of 34 satellites into Low Earth Orbit (LEO).
- The launch of these satellites was carried out by the French space company Arianespace from the Baikonur Cosmodrome in Kazakhstan.
- With this latest launch by OneWeb there are now total 322 satellites set into the arrangement in-orbit constellation.
- This number is nearly half of OneWeb's entire 648 LEO satellite fleet that will deliver high-speed, low-latency global connectivity.
- With this launch, Arianespace also celebrates passing the mark of 1,000 satellites successfully launched to space.
- **OneWeb**
- OneWeb is a global communications company headquartered in London.

- The company is building a capability to deliver broadband satellite internet services worldwide.
- **Satellite constellation for Internet services:**
- The OneWeb's satellite constellation is a planned initial 648 satellite constellation which is in the process of being completed in 2022.
- The company has come up with a goal to provide global satellite Internet broadband services to people everywhere.
- The constellation is being deployed by OneWeb, headquartered in London, with offices in California, Florida, Virginia, Dubai and Singapore.

A new technique to Control Growth of Mosquitoes

Question: Researchers from where in the world have developed a CRISPR-based system that can safely suppress mosquito vectors through sterilization?

a) Bangaluru b) Hyderabad c) California d) London

Answer: (c)

Related Facts:-

- Recently scientists have created a new technology for controlling mosquitoes.
- They have used for this purpose CRISPR (Clustered Regularly Interspaced Short Palindromic Repeats).
- The precision-guided sterile insect technique alters genes linked to male fertility and female flight in *Aedes aegypti* mosquito.
- This species is responsible for spreading diseases including dengue fever, chikungunya and Zika.
- This new CRISPR-based system that can safely suppress mosquito vectors through sterilization and has been developed by Researchers from California.
- This new technique is also known as precision-guided sterile insect technique (pgSIT).
- pgSIT builds deployable mosquitoes that can reduce populations using a CRISPR-based technique
- It changed genes related to male fertility-producing sterile offspring-and female flight of *Aedes aegypti*.
- Disease-carrying female mosquitos become flightless and it also sterilizes the male mosquitoes as pgSIT uses CRISPR.

First India-Australia 2+2 Foreign and Defence Ministerial Meeting held in New Delhi

Question: Recently, with which country, India has held a 2+2 Ministerial Dialogue for the first time?

(a) Japan (b) USA (c) Russia (d) Australia

Answer: (d)

Related Facts:

- India will host the first-ever 2+2 Ministerial Dialogue with Australia in New Delhi.
- Australian Foreign Minister Marise Payne and Defence Minister Peter Dutton from the Australian side will meet with External Affairs Minister (EAM) S Jaishankar and Defence Minister Rajnath Singh.
- The Afghanistan crisis was on the top of the agenda of the India-Australia 2+2 dialogue.
- The ministers also discuss on economic security, climate, cyber, supply chains, critical technology, and exploring new areas in Artificial Intelligence (AI) and unmanned vehicles.
- 2+2 Ministerial is the highest-level institutional mechanism between the two countries.

Indian Navy and Royal Australian Navy begin 4th edition of AUSINDEX exercise

Question : Which edition of the bilateral naval exercise between Australia and India, AUSINDEX 2021 took place ?

a) 1st b) 2nd c) 3rd d) 4th

Answer : (4th)

Related facts :

- The 4th edition of AUSINDEX, a bilateral navy exercise between the Indian Navy and the Royal Australian Navy.
- It aims to strengthen peace in Indo-Pacific region

- Indian Navy Task Group comprising IN Ships Shivalik and Kadmat is part of the exercise.
- The fourth edition of AUSINDEX exercise includes complex surface, sub-surface and air operations between ships, submarines, helicopters and long-range maritime patrol aircraft (MPA) of the two participating navies.
- The first edition of the exercise took place in 2015 at Visakhapatnam, India.

Reference: <https://www.livemint.com/news/india/australias-biennial-ausindex-maritime-warfare-exercises-to-commence-this-week-11630917104898.html>

OneWeb signed a MoU to Distribute satellite services in India

Question: Which of the following satellite networking company and OneWeb, the low Earth orbit satellite communications company have recently signed a MoU to distribute satellite services in India?

a) Hughes Network Systems b) Juniper Network c) EchoStar d) None of these

Answer: (a)

Related Facts:-

- OneWeb and Hughes Network Systems have signed a MoU for the Low Earth satellite service in the US and India.
- It should be known that Hughes Network Systems is the US based satellite networks company.
- Hughes is an innovator in satellite and multi-transport technologies and networks for 50 years.
- OneWeb is Bharti (Indian Telcom Company) backed low Earth orbit satellite communications company of Britain.
- In India, these companies have entered into an MOU for a strategic agreement to distribute services to large enterprises, small and medium businesses, government, telcos and ISPs in the rural and remote parts of the country.
- Services will be offered by Hughes Network Systems, LLC, and Hughes Communications India Private Ltd, respectively.
- Hughes and OneWeb intend to work together to broaden distribution globally, with Hughes to offer OneWeb's low-latency, high-speed connectivity.

Naval Anti Drone System (NADS)

Question: With which of the following Indigenous company Indian navy has signed an agreement on 31 august 2021 for acquiring Naval Anti Drone System (NADS)?

- a) Bharat Electronics Limited (BEL) b) Bharat dynamics Limited (BDL)
c) Reliance Naval and Engineering Limited (RNAVAL) d)
None of these

Answer: (a)

Related Facts:-

- On 31 august 2021; agreement for acquiring Naval Anti Drone System (NADS) was signed in the presence of senior officers of BEL, DRDO and Indian Navy.
- With this agreement, Indian Navy has now secured the deal for the supply of NADS with Bharat Electronics Limited(BEL)
- The agreement covers mobile and static versions of the NADS system, the mobile version is mounted on a truck.
- This will be the first indigenous Anti Drone System (NADS) with hard and soft killer capabilities to be acquired by the Indian Navy.
- The Naval Anti Drone System (NADS) has been developed by Defense Research and Development Organization (DRDO) and India Electronics Ltd.
- India has developed this indigenous anti-drone technology to keep a close eye on the enemies looking towards the country.
- The technology, which this drone system is equipped with, is latest and therefore capable in providing security to the country's border.
- These anti-drone systems will also be part of Prime Minister Narendra Modi's security.
- It should be noted that the Pakistan's terrorists are nowadays are using Chinese-made commercial drones,
- The use these drone to send weapons across the Line of Control and International Border to Jammu and Kashmir.
- In view of this, DRDO has developed entry drone technology, which allows enemy drones to be captured in a few minutes.

Rare Merger of Three Jumbo Black Holes

Question: In which of the following constellation a team of astrophysicists in India have recently spotted a rare merging of three Supermassive Black Holes?

a) Toucan b) Hydra c) Ursa Major d) The big bear

Answer: (a)

Related Facts:-

- A team of astrophysicists in India have recently spotted a rare merging of three Supermassive Black Holes.
- These black holes have been observed in the centers of three galaxies located in the Toucan constellation.
- The discovery came when the astrophysicists from Indian Institute of Astrophysics were observing the merging of two galaxies.
- These merging galaxies were named as NGC7733 and NGC 7734 and located in our celestial neighborhood.
- Astrophysicists detected unusual emissions from the centre of the NGC 7734 when they found the curious movement of a large bright clump within it.
- They found that this new clump of light is nothing but a new galaxy having a different velocity than that of NGC7733.
- After confirming with some other observations that this was a separate galaxy, the scientists named it NGC7733N.
- There are Supermassive black holes, which are several million solar masses in size, at the centres of these galaxies.
- These black holes are known as Active Galactic Nuclei, since the black holes accrete matter; they often have a glow around them.
- It should be known that the Glow around a black hole can be observed using light spectroscopy.
- The report about these black holes was published in the journal Astronomy and Astrophysics.
- According to the author of the paper the discovery happened by chance during the observation of barred spiral galaxies NGC7733 and NGC7734.
- Astronomers said that they were studying the active galactic nuclei in these two massive galaxies which surprisingly led them to the detection of the third.
- **Final Parsec Problem**
- The Astronomers explained that if two galaxies collide, their black hole will also come closer by transferring the kinetic energy to the surrounding gas.

- The distance between the black holes decreases with time until the separation is around a parsec (3.26 light-years).
- The two black holes are then unable to lose any further kinetic energy to get even closer and merge. This is known as the final parsec problem.
- Now as the astronomers detected the third black hole near these two, there is no problem now.
- The two can come closer when another black hole or a star passes by and takes away some of their combined angular momentum
- Thus, the dual merging black holes will merge with each other in the presence of a third.

New High-rate Bio Methanation Technology

Question: In which of the following city CSIR -Indian Institute of Chemical Technology (IICT) is located?

a) Hyderabad b) New Delhi c) Chennai d) Ahemdabad

Answer: (a)

Related Facts:-

- Scientists have developed a new high-rate bio methanation technology for the integrated treatment of sewage.
- It is useful for all types of organic solid waste with concomitant generation of biogas, bio manure and reusable water.
- On 03 September the Department of Science and Technology (DST) informed the details about this technology.
- An integrated model plant comprising of AGR and NF technologies has been established at CSIR-IICT, Hyderabad.
- The plant will function for simultaneous treatment of sewage and organic solid waste for the generation of value-added products such as biogas, bio manure, and reusable water.
- The technology is field-tested and working continuously for the past two years.
- According to the experts the technology has decentralised application across India.
- Solid and liquid wastes are the major challenges being faced by big cities and by areas witnessing rapid urbanization.

- An integrated treatment of sewage along with organic solid waste can help evolve a sustainable technology to overcome solid and liquid waste disposal issues.
- The technology has been jointly developed by A Gangagni Rao, and S Sridhar, chief scientist and senior principal scientist respectively at the CSIR-Indian Institute of Chemical Technology (IICT).
- This high-rate bio methanation tech based on Anaerobic Gas lift Reactor (AGR) technology.
- It will be used for the treatment of organic solid waste and concomitant generation of biogas and bio manure along with nanofiltration (NF) setup.
- This integrated and sustainable sewage and organic solid waste treatment system can be used for treating groundwater and wastewater.
- This treatment system is therefore useful in generating potable and reusable water respectively.
- The technologies, supported by the "Waste Management Technology" programme of the Department of Science and Technology (DST), have received national patents individually.
- Instead of sending the organic solid waste and liquid waste to common bigger facilities in the city, those can be treated at source in a decentralised manner.
- Urban and local bodies and gated communities comprising around 50,000 to 1,00,000 population can benefit from this technology.

ISRO successfully conducted Propulsion System test for the Service Module of the Gaganyaan

Question: In which of the following state of India, test facility of ISRO Propulsion Complex (IPRC), Mahendragiri, is located?

a) Karnataka b) Tamil Nadu c) Andhra Pradesh d) Kerala

Answer :(b)

Related Facts:-

- On August 28, 2021, ISRO successfully conducted Propulsion System test for the Service Module of the Gaganyaan.
- It was the first hot test of the System Demonstration Model (SDM) of the Gaganyaan Service Module Propulsion System for a duration of 450 s.

- It was conducted at the test facility of ISRO Propulsion Complex (IPRC), Mahendragiri, Tamil Nadu.
- The system performance met the test objectives and there was a close match with the pre-test predictions.
- Further, a series of hot tests are planned to simulate various mission conditions as well as off-nominal conditions.
- The Service Module is part of the Gaganyaan Orbital module and is located below the crew module and remains connected to it until re-entry.
- The Service Module (SM) Propulsion System consists of a unified bipropellant system.
- It is consisting of 5 nos. of 440 N thrust engines and 16 nos. of 100 N Reaction Control system (RCS) thrusters with MON-3 and MMH as Oxidizer and Fuel respectively.
- The System Demonstration Model (SDM), consisting of 5 nos. of 440 N engines and 8 nos. of 100 N thrusters, was realized to qualify the propulsion system performance in ground.
- A new test facility is established at IPRC, Mahendragiri for testing the SDM.

Sports

Hockey

Odisha will host the Men’s Hockey Junior World Cup

Question: Which of the following State will host the Men’s Hockey Junior World Cup?

(a) Uttar Pradesh (b) Odisha (c) Tamil Nadu (d) Maharashtra

Answer: (b)

Related Facts:

- Odisha will host the Men’s Hockey Junior World Cup at the Kalinga Stadium.
- The tournament will be held from 24 November to 5 December 2021.
- Naveen Patnaik, Chief Minister of Odisha, unveiled the logo and the trophy for the event.

- 16 nations will participate in this event including India.
- Remaining 15 nations are Korea, Malaysia, Pakistan, South Africa, Egypt, Belgium, England, France, Germany, the Netherlands, Spain, USA, Canada, Chile and Argentina.
- **Extra Facts:**
- The Governor of Odisha is Ganeshi Lal.
- 96th Constitutional Amendment Act substituted the word Oriya by the word Odia.

Football

CR7 has become the highest goal scorer in international football

Question: Which of the following footballer has become the highest goal scorer in international football?

- (a) Cristiano Ronaldo (b) Lionel Messi (c) Sunil Chhetri
(d) Neymar jnr

Answer: (a)

Related Facts:

- Five times Ballon d'Or winner Cristiano Ronaldo (CR7) has become the record highest goal scorer in international football.
- The former Real Madrid and Juventus legend and the current Manchester United forward has now 111 international goals, breaking a record of 109 goals previously held by Iran's Ali Daei.
- Seven times Ballon d'Or winner, the former Barcelona legend and current PSG Forward Messi has 76 international goals in 149 games is now placed 9th all-time goal-scorer's list.

Billiards, Snooker & Squash Pankaj Advani wins 24th world title

Question: How many times did Pankaj Advani win the 'IBSF World Billiards Championship'?

(a) 22 (b) 24 (c) 6 (d) None of these

Answer: (b)

Related Facts:

- Pankaj Advani grabbed his 24th world title when he triumphed at the IBSF 6-Red Snooker World Cup with a victory over Pakistan's Babar Masih in the final.
- Advani, who won his 11th Asian title last week, started the final with a comfortable 42-13 win in the opening frame.
- Babar drew parity by winning the second 38-14.
- The 36-year-old won the third and fourth in quick succession to go 3-1 up.

Athletics

Harmilan Kaur sets new record in 1500m race at National level

Question: Who has set new national record in women's 1500m race?

(a) Sunita Rani (b) Busan Asiad (c) Harmilan Kaur (d) None of these

Answer: (c)

Related Facts:

- Harmilan Kaur has created a new national record in the women's 1500m race by clocking 4:05.39 to bag the gold at the 60th National Open Athletics Championships
- National Open Athletics Championships held at the Jawaharlal Nehru Stadium, Hanamkonda in Warangal, Telangana.
- She has broken the 19-year-old record held by Sunita Rani in 1500m at the 2002 Asian Games in Busan by clocking 4:06.03.
- KM Chanda of Delhi was second with a time of 4:18.24s.
- Deeksha of Madhya Pradesh was third clocking 4:21.34s.

Pramod Bhagat wins first ever para badminton gold for India.

Question: Pramod Bhagat who won historic badminton gold in the Paralympics participated in which category of para-badminton?

(a) SL4 (b) SL3 (c) SL5 (d) SL6

Answer : (b)

Related facts :

- Reigning world champion Pramod Bhagat claimed a historic gold medal in the men's singles SL3 class.
- He defeated great Britain's Daniel Bethell in the final .
- With badminton making its debut at the Paralympics this year, Bhagat, the current world No. 1, became the first Indian to win a gold medal in the sport.
- In 2019, he received the Arjuna Award and Biju Patnaik Award for Excellence in Sports in India.
- What is the SL3 class?

- Players who have impairment in one or both lower limbs and poor walking/running balance.
- Players are offered to play in 6 different categories regarding their deficiency. They are WH1, WH2, SL3, SL4, SL5 and SL6.
- In the same category, Manoj Sarkar bagged the bronze medal for India.

K Kasturirangan

Question – On 21 September 2021, the Ministry of Education constituted the National Steering Committee under whose chairmanship to prepare the National Curriculum Framework?

- (a) Najma Akhtar (b) Govind Prasad Sharma (c) Mahesh Chandra Pant
(d) Dr.K. Kasturirangan

Answer—(d)

Related facts—

- The Ministry of Education has formed the National Steering Committee(NSC) for the development of National Curriculum Frameworks(NCF) on 21-9-2021.
- NSC has formed under chairmanship of K Kasturirangan.
- He is an Indian space scientist who headed the Indian Space Research Organisation (ISRO) from 1994 to 2003.
- **Main functions of the committee —**
- As per the perspectives of the NEP 2020, the NSC will develop four National Curriculum Frameworks- i.e., the National Curriculum Framework for School Education, National Curriculum for Early Childhood Care and Education, National Curriculum Framework for Teacher Education and National Curriculum Framework for Adult Education.
- The NSC will discuss different aspects of School Education, Early Childhood Care and Education (ECCE), Teacher Education and Adult Education keeping in focus all the recommendations of NEP 2020 related to these four areas for proposing curriculum reforms.
- The NSC will discuss the position papers finalised by the National Focus Groups on different aspects of all the above four areas.
- The NSC will draw inputs from State Curriculum Frameworks received on the Tech Platform for the National Curriculum Frameworks.
- All the NCF would also reflect upon the implications of situations such as COVID-19 Pandemic on respective areas for future.
- While convening its meetings, committee(NSC) may invite subject experts, scholars, educationists, etc. as and when required and deliberate and decide upon the course of actions with the objective to meet the timelines of the strategy for the development of NCF.
- The Committee will finalise NCF after incorporating suggestions received from various stakeholders, i.e., states/UTs and also in the meetings of Executive Committee (EC) and General Body (GB) of the NCERT and Central Advisory Board on Education(CABE).

Telangana HC : IRDAI Chairman's jurisdiction issue

Question : Which of the following High court has recently (september 2021) slammed IRDAI Chairman for appointing official without jurisdiction ?

- a. Telangana High Court b. Andhra Pradesh High Court
c. Karnataka High Court d. Madras High Court

Ans. a.

Related facts —

- Telangana High Court has recently(september 2021) slammed IRDAI Chairman for appointing official without jurisdiction.
- It is notable that in 2014, the IRDAI chairman had relaxed the minimum qualification requirement from a fellow chartered accountant(FCA) to the chartered financial analyst(CFA) for an appointment of a candidate to a senior joint director(now known as chief general manager) position.
- The matter reached the Telangana High Court over a long-fought issue wherein the IRDAI promoted Mamta Suri as chief general manager instead of promoting S Jayasimhan.
- The High Court order termed Suri's promotion illegal, with effect from 2014, and asked the insurance regulatory to inter-alia delete ICWAI and CFA as qualifications in Finance & Investment streams, making inter-CA, ACA, and FCA and not CFA as eligible qualifications.
- It is notable that CFA is a course offered by ICFAI or the Institute of Chartered Financial Analyst of India.
- This course is offered for imparting investment and financial management, whereas FCA means a qualification attained by an associate chartered accountant after putting five years of practice as an accountant after qualifying ACA.

Believe What Life and cricket Taught me

Question: Whose autobiography is Believe What Life and cricket Taught me?

(a) Suresh Raina (b) Sachin Tendulkar (c) Ravindra Jadeja (d) Mahendra Singh Dhoni

Answer : (a)

Related Facts:

- Indian cricketer Suresh Raina came up with his memoir in May 24 titled Believe: What Life and Cricket Taught Me.
- It has been co-written by journalist and author Bharat Sundaresan.
- It is Published by Penguin Random House India.
- The book will detail the challenges he encountered as a young cricketer, the bullying he had to overcome in school and cricket camps, and the relationships he forged over the years.

- Interesting details:
- It also features the many learnings he gathered from senior cricketers like Rahul Dravid, MS Dhoni, Sourav Ganguly, Sachin Tendulkar, all of which helped him on and off the field.

Miscellaneous

Naga Cucumber from Nagaland gets GI tag

Question: The famous Naga Cucumber recently got the GI tag, it belongs to which region?

(a) Arunachal Pradesh (b) Nagaland (c) Manipur (d) Meghalaya

Answer: (b)

Related Facts:

- Nagaland's "sweet cucumber" was awarded a geographical identification (GI) tag.
- Naga cucumber is recognised for its sweetness and unique green colour.
- It is rich in potassium and has low calories.
- Nagaland has the fifth-highest cultivation of cucumber area-wise and ranks third in production.
- Geographical identification (GI) tag as an agricultural product under provisions of The Geographical Indications of Goods (Registration and Protection) Act, 1999.
- Tribes like Konyak are found to grow cucumber all throughout the year by seed to seed method depending upon the soil type.

China's central bank declares all cryptocurrency transactions illegal

Question: Recently, Which of the following country has banned the use of cryptocurrency?

(a) China (b) India (c) Australia (d) USA

Answer: (a)

Related Facts:

- China's central bank has announced that all transactions of crypto-currencies are illegal.
- China is one of the world's largest crypto-currency markets.

- The global values of cryptocurrencies including Bitcoin have massively fluctuated in during 2020-2021 partly due to Chinese regulations.
- Chinese notice has banned all the related financial activities involving cryptocurrencies like transactions involving virtual currency derivatives, selling tokens, trading crypto, and illegal fundraising.
- Crypto crackdown has opened up gates for China to introduce its own digital currency.
- Cryptocurrency is a binary data that have been designed to work as a medium of exchange..

Meeting of the Coir Board

Question : The 238th Meeting of the Coir Board held on September 27, 2021. What thing has informed by the Concern Minister in this meeting ?

- India contributes 80% of the global production of Coir
- India contributes 90% of the world trade in Coir products
- Coir industry provides employment to more than 7.3 lakh people in rural areas
- None of the above

Ans. c.

Related facts —

- The 238th Meeting of the Coir Board held on September 27, 2021.
- Key points of the meeting addressed by Concerned Minister Narayan Rane —
- Narayan Rane has called for developing Coir Industry in Konkan, North and North-Eastern region of the country and expand the market network.
- Addressing the 238th Meeting of the Coir Board in Gujarat's Kevadia the concerned minister informed that India contributes 70% of the global production of Coir and 80% of the world trade in Coir products.
- Coir industry provides employment to more than 7.3 lakh people in rural areas, 80% of which are women and it is utmost essential to make it comparative, self-sustainable and capable of providing employment to the rural folk.
- The acceptability of Coir products has increased rapidly due to its 'environment friendly' image.
- During the year 2020-21, the export of coir and coir products reached the level of Rs 3778.97 crore, with a growth rate of 17% in quantity and 37% in value, despite COVID adversities.

Vanijya Utsav' to boost trade and exports

Question: Which of the following Union Minister has inaugurated the Vanijya Utsav at Ahmedabad?

- (a) Darshna Jardosh (b) Shobha Karandlaje (c) Renuka Singh Saruta
(d) Meenakashi Lekhi

Answer: (a)

Related Facts:

- Union Minister of State for Textiles Darshna Jardosh has inaugurated a 'Vanijya Utsav- Showcasing India a Rising Economic Force' at Ahmedabad.
- The aim of this Vanijya Utsav is to help small and medium trade and industries and boost our economy.
- The two day "Vanijya Utsav" has been organized as part of Azadi Ka Amrit Mahotsav at Ahmedabad Management Association.
- The event is being planned with a target to enhance the State's share of exports from the present 4 % to 10 % by 2030.

107-year-old Japanese sisters confirmed as world's oldest identical twins

Question: Umeno Sumiyama and Koume Kodama have been confirmed as the oldest identical twins living, From which of the following country do they belong?

- (a) China (b) Japan (c) Indonesia (d) Thailand

Answer: (b)

Related Facts:

- Umeno Sumiyama and Koume Kodama (Japan) have been confirmed as the oldest identical twins living (female) and the oldest identical twins ever (female) at 107 years.
- Umeno and Koume were born on 5th November 1913 on Shodo Island, Kagawa prefecture, Japan.
- They have broken Kin and Gin's record who were not only the previous record holders for the oldest identical twins living, but also a household name in Japan.

Reference: https://www.washingtonpost.com/world/107-year-old-japanese-twins-certified-as-worlds-oldest/2021/09/20/dc2efcae-1a0f-11ec-bea8-308ea134594f_story.html

Planetarium Innovation Challenge for Indian start-ups

Question: On which of the following date MyGov India, launched the Planetarium Innovation Challenge for Indian start-ups and tech entrepreneurs?

a) 11 September 2021 b) 17 September 2021 c) 11 August 2021 d) None of these

Answer: (a)

Related Facts:-

- On 11th September 2021; MyGov India, launched the Planetarium Innovation Challenge for Indian start-ups and tech entrepreneurs.
- This program has been launched this programme under the Ministry of Electronics and Information Technology (MeitY).
- The challenge aims to bring together the tech firms and Start-ups (based out of India) with the potential to build an indigenous planetariums.
- This will operate with system software using latest technologies including Augmented Reality (A.R.), Virtual Reality (V.R.) and Merged Reality (M.R.).
- It should be noted that Inspired by the Chandrayaan launches, Indian Space Research Organization conducted the ISRO Quiz competition 2019.
- It was conducted in collaboration with MyGov where several schools, parents and enthusiastic mentors made it memorable through their active participation.
- Looking forward to a repeat of the ISRO Quiz, Planetarium Innovation Challenge was launched by MyGov India. Registration is open till 10th October 2021.
- The challenge invites applications from start-ups and tech entrepreneurs to develop state-of-the-art technology for our Planetariums.
- There is an opportunity for Planetariums in India to deploy new technologies (Augmented Reality, Virtual Reality and Merged Reality), especially for smaller cities and rural areas, all Made in India.
- The Innovation Challenge is open to experts from all domains of Planetarium Technology at <https://innovateindia.mygov.in/>.
- The applicants may include Start-ups, Indian Legal Entities; even Individuals (or Teams) are welcome to submit ideas.
- The first winner, second winner and third winner under the contest will get the cash prizes of Rs.5 lakh, Rs.3 lakh and Rs.2 lakh respectively.

DC Cooking System

Question : On which date CSIR-CMERI handed over the newly developed Solar DC Cooking System to the Asansol Braille Academy, West Bengal ?

- a. 22nd September 2021 b. 21st September 2021 c. 20th September 2021
d. 19th September 2021

Ans. a.

Related facts —

- CSIR-CMERI handed over the newly developed Solar DC Cooking System to the Asansol Braille Academy, West Bengal on September 22, 2021.
- The CSIR-CMERI developed Solar DC Cooking Technology was transferred to two business entities these are — M/s Asansol Solar & LED House, WB and M/s Meeco Solar & Infrastructure Associates, Durgapur, WB.
- Newly developed Solar DC Cooking System is a Solar Energy based Cooking System which consists of solar PV panel, charge controller, battery bank and cooking oven.
- It provides a Clean Cooking Environment, Inverter-Less Direct Operation, Fast and Uniform Heating and a potential to save 1 ton Carbon Dioxide emissions year/household.
- This System will help in substantial curbing of Carbon Dioxide emissions; as even LPG usage emits Carbon Dioxide.
- The Technology once it reaches the market will cost in the range of Rs 65,000- Rs 70,000.

De- extinction of an extinct animal

Question: scientists at a US startup Colossal Biosciences are planning to de-extinct which of the following extinct animal?

- a) Woolly mammoth b) Dynasore c) Dodo d) None of these

Answer: (a)

Related Facts:

- Now scientists are planning to de- extinct the woolly mammoths a species of mammoth that lived during the Pleistocene until its extinction in the Holocene epoch.
- A US startup Colossal Biosciences has announced their plans to bring woolly mammoths, or animals like them, back from extinction.
- It should be known that woolly mammoths roamed into the frosty landscape of the Siberian tundra or the Arctic some 4,000 years ago.
- Colossal has received US\$15 million in initial funds to support research conducted by Harvard geneticist George Church, among other work.
- The proposed project is exciting, with laudable ambitions — but whether it is a practical strategy for conservation remains unclear.
- Colossal proposes to use CRISPR gene editing technology to modify Asian elephant embryos (the mammoth’s closest living relative).
- These embryos could then theoretically develop into elephant-mammoth hybrids (Mammophants), with the appearance and behaviour of extinct mammoths.
- According to Colossal, the ultimate aim is to release herds of these Mammophants into the Arctic.
- Here in the arctic herds of these de-extinct Mammophants will fill the ecological niche mammoths once occupied.
- When mammoths disappeared from the Arctic some 4,000 years ago, shrubs overtook what was previously grassland.
- Mammoth-like creatures could help restore this ecosystem by trampling shrubs, knocking over trees, and fertilizing grasses with their faces.
- Theoretically, this could help reduce climate change. If the current Siberian permafrost melts, it will release potent greenhouse gases.
- Compared to tundra, grassland might reflect more light and keep the ground cooler, which Colossal hopes will prevent the permafrost from melting.
- While the prospect of reviving extinct species has long been discussed by groups such as Revive and Restore.
- It is important that advances in genome editing have now brought such dreams close to reality.
- **Controversial field:-**
- De-extinction is a controversial field. Critics have referred to such practices as playing god and accused scientists in favor of de-extinction.
- A common worry is that bringing back extinct species, whose ecological niches may no longer exist, will upset existing ecosystems.

- New Biosciences Company Colossal says it aims to recreate the steppe ecosystem (large, flat grassland) that flourished in Siberia until about 12,000 years ago.
- It has been estimated the total mass of plants and animals in Siberia's tundra is now 100-fold less than when it was a steppe.
- Simply, this ecosystem is already compromised, and it's hard to see how reintroducing Mammophants would lead to further damage.
- Reintroducing species can transform ecosystems for the better. A well-known example is the reintroduction of wolves to Yellowstone National Park.
- In the 1990s, these wolves started a cascade of positive changes for local flora and fauna. Mammophants may do the same.
- The biting question is that climate change is one of the great moral challenges of our time.
- The melting of the Siberian permafrost is expected to accelerate climate change and exacerbate ecological disaster.
- This is such a serious problem that even ambitious projects with a low probability of success can be ethically justified.
- Often our moral intuitions are clouded when considering new technologies and interventions.
- Important aspect is that, technologies which originally seemed scary and unnatural can slowly become accepted and valued.

<https://scitechdaily.com/startup-colossal-biosciences-wants-to-bring-woolly-mammoths-back-from-extinction-it-might-not-be-such-a-bad-idea/>

Approval of major Reforms in Telecom Sector

Question : The Union Cabinet, chaired by the Prime Minister Narendra Modi has recently(September 2021) approved major reforms in telecom sector.

Accordingly, which of the following statement is correct ?

Statements —

1. In future Auctions, tenure of spectrum increased from 20 to 30 years
2. No Spectrum Usage Charge (SUC) for spectrum acquired in future spectrum auctions
3. Spectrum sharing encouraged- additional SUC of 0.5% for spectrum sharing removed

Options —

- a. Only 1. b. Only 2. c. Only 3. d. All of the above

Ans. d.

Related facts —

- The Union Cabinet, chaired by the Prime Minister Narendra Modi has recently(September 2021) approved major reforms in telecom sector.
- Key points of the reforms —
- Nine structural reforms and Five procedural reforms plus relief measures for the Telecom Service Providers are as below:—

A Structural Reforms

1. Rationalization of Adjusted Gross Revenue: Non-telecom revenue will be excluded on prospective basis from the definition of AGR.
2. Bank Guarantees (BGs) rationalized: Huge reduction in BG requirements (80%) against License Fee (LF) and other similar Levies. No requirements for multiple BGs in different Licenced Service Areas (LSAs) regions in the country. Instead, One BG will be enough.
3. Interest rates rationalized/ Penalties removed: From 1st October, 2021, Delayed payments of License Fee (LF)/Spectrum Usage Charge (SUC) will attract interest rate of SBI's MCLR plus 2% instead of MCLR plus 4%; interest compounded annually instead of monthly; penalty and interest on penalty removed.
4. For Auctions held henceforth, no BGs will be required to secure instalment payments. Industry has matured and the past practice of BG is no longer required.
5. Spectrum Tenure: In future Auctions, tenure of spectrum increased from 20 to 30 years.
6. Surrender of spectrum will be permitted after 10 years for spectrum acquired in the future auctions.
7. No Spectrum Usage Charge (SUC) for spectrum acquired in future spectrum auctions.
8. Spectrum sharing encouraged- additional SUC of 0.5% for spectrum sharing removed.
9. To encourage investment, 100% Foreign Direct Investment (FDI) under automatic route permitted in Telecom Sector. All safeguards will apply.

B Procedural Reforms

1. Auction calendar fixed – Spectrum auctions to be normally held in the last quarter of every financial year.

2. Ease of doing business promoted – cumbersome requirement of licenses under 1953 Customs Notification for wireless equipment removed. Replaced with self-declaration.
3. Know Your Customers (KYC) reforms: Self-KYC (App based) permitted. E-KYC rate revised to only One Rupee. Shifting from Prepaid to Post-paid and vice-versa will not require fresh KYC.
4. Paper Customer Acquisition Forms (CAF) will be replaced by digital storage of data. Nearly 300-400 crore paper CAFs lying in various warehouses of TSPs will not be required. Warehouse audit of CAF will not be required.
5. SACFA clearance for telecom towers eased. DOT will accept data on a portal based on self-declaration basis. Portals of other Agencies (such as Civil Aviation) will be linked with DOT Portal.

Beside these reforms Cabinet has also approved some Liquidity needs of Telecom Service Providers(TSPs).

<https://pib.gov.in/PressReleasePage.aspx?PRID=1755086>

Paradeep Port Trust : Installation of New Container Scanner

Question : A Mobile X-Ray Container Scanning System(MXCS) has been installed by Paradeep Port. Accordingly, which of the following statement is correct ?

Statements —

1. **Cost of Scanner is Rs 30 crore**
2. **The Scanner can scan up to 25 containers per hour**
3. **The Atomic Energy Regulatory Board(AERB) has issued license to Paradeep Customs for its regular operation.**

Options —

- a. Only 1. b. Only 2. c. Only 3. d. All of the above

Ans. d.

Related facts —

A Mobile X-Ray Container Scanning System(MXCS) has recently(September 2021) been installed by Paradeep Port Trust.

Key points —

1. MXCS has been installed under the Ease of Doing Business(EoDB) initiative.
2. It has been installed at a cost of Rs 30 crore for the purpose of reducing physical examination and dwell time of containers at the Port.

3. The Atomic Energy Regulatory Board (AERB) has issued license on 27th August, 2021 to Paradeep Customs for its regular operation.
4. The Scanner can scan up to 25 containers per hour, enabling the Trade to directly move out their containers with upgrade security and zero hassle.
5. It will also facilitate movement of unshredded metallic scrap materials in containers through the Port to meet the long standing requirement of hinterland Industries.

Essar Power : Reduction in Sulphur emissions by 25%

Question : Essar Power has recently(September 2021) commissioned system to cut sulphur emissions by 25%. Name the location where this system commissioned ?

- a. Essar Power Hazira (EPHL) b. Essar Power Orissa-Paradip
c. The Essar Power Jharkhand-Tori (EPJL) d. Essar Oil's refinery complex Salaya

Ans. a.

Related facts —

- Essar Power has recently(September 2021) commissioned system to cut sulphur emissions by 25%.
- **Location —**
- This system is actually Essar Power's first flue gas scrubber at the Essar Power Hazira (EPHL) facility.
- The scrubber is designed to bring down sulphur dioxide in flue gas by 25%, going a long way in checking emissions and helping the environment.
- **About EPHL —**
- The EPHL is part of Essar Power, which is India's one of the first private sector independent power producers with a power generating capacity of 2,070 MW across four plants in India and Canada.
- The company also has a 465-km interstate transmission system which spans across 3 Indian states.

Mexico decriminalized abortion

Question : Recently which Country's Supreme Court has decriminalized abortion?

(a) USA (b) Canada (c) Cuba (d) Mexico

Answer: (d)

Related Facts:

- Supreme Court of Mexico has ruled that criminal penalties for terminating pregnancies are unconstitutional.
- This ruling was meant for northern state of Coahuila.
- Currently, abortion is severely restricted in four of the states in Mexico. It is also legal in cases of rape or where mother's life is in danger
- With this ruling, women who were jailed for having abortions will now be released, with immediate effect.
- Mexico City decriminalised abortion in 2007 and the supreme court upheld that law as constitutional.

KarbiAnglongPeace Accord

Question: KarbiAnglong is a tripartite agreement signed among the Central Government, five insurgent groups active in KarbiAnglong, and with Which State Government ?

(a) Arunachal Pradesh (b) Nagaland (c) Assam (d) Manipur

Answer: (c)

Related Facts:

- KarbiAnglong is tripartite agreement signed between the Centre, five insurgent groups active in KarbiAnglong, and the Assam government.
- Karbi is a major ethnic community in Assam and are dotted by several factions and splinters.
- KarbiAnglong agreement marks the culmination of an extended process of negotiation to end insurgency in the region.
- It will ensure greater devolution of autonomy to the KarbiAnglong Autonomous Council.
- Central Government will provide development package of ₹1,000 crore over the next five years, to the Assam government for the development of Karbi areas.

- Assam Government will set up a Karbi Welfare Council for focussed development of Karbi people living outside KAAC area.
- The five insurgent groups which signed the peace accord are: People's Democratic Council of KarbiLongri (PDCK), KarbiLongri NC Hills Liberation Front (KLNLF), Karbi People's Liberation Tiger (KPLT), Kuki Liberation Front (KLF) and United Peoples Liberation Army (UPLA).

Pacific Air Chiefs Symposium 2021 (PACS-21)

Question: At which of the following place the Pacific Air Chiefs Symposium 2021 (PACS-21) was recently held?

a) Hawaii b) Guam c) Diego Garcia d) None of these

Answer: (a)

Related facts:-

- From 30 Aug to 02 Sep 2021 Pacific Air Chiefs Symposium 2021 (PACS-21) held at Joint Base Pearl Harbor-Hickam, Hawaii.
- The Symposium was organised by the Pacific Air Forces (PACAF) a major command of the US Air Force (USAF).
- Air Chief Marshal RKS Bhaduria PVSM AVSM VM ADC, Chief of the Air Staff (CAS) attended the event.
- The theme of the event was- **Enduring Cooperation towards Regional Stability.**
- It was also attended by Air Chiefs from countries in the Indo-Pacific region.
- CAS of India RKS Bhaduria was nominated as the Dean for the Symposium.
- Deliberations were held in the Symposium through panel discussions, table top exercises and keynote addresses.
- It dealt upon the topics ranging from aspects of Regional Security and the significance of Air Domain Awareness.
- The symposium also focused on cooperation amongst Air Forces for Humanitarian and Disaster Relief Operations.

- In addition to participation in the symposium, CAS of India also met General Charles Q. Brown, Jr. Chief of Staff, U.S. Air Force and General Kenneth S. Wilsbach, Commander, Pacific Air Forces.
- He also held bilateral and multilateral meetings on defence cooperation and security with Air Chiefs from eleven other countries.
- Participation in PACS 2021 provided an opportunity for enhancing mutual understanding and deepening of relationships with like-minded nations.
- **Pacific Air Forces (PACAF):**
- Pacific Air Forces (PACAF) is a Major Command (MAJCOM) of the United States Air Force.
- PACAF is also the air component command of the United States Indo-Pacific Command.
- The mission of Pacific Air Forces is to provide ready air and space power to promote U.S. interests in the Asia-Pacific region during peacetime, through crisis, and in war.

Plant-Based Air-Purifier for Indoor Spaces

Question: Which of the following institute of technology has recently come up with new product, a Living-Plant-Based Air-Purifier for Indoor Spaces?

a) IIT Roorkee b) IIT Ropar c) IIT Madras d) None of these

Answer: (b)

Related Facts:-

- IIT Ropar's startup Urban Air Laboratory, in collaboration with Delhi University, has created a plant-based indoor air purifier called Ubreathe Life.
- Unlike other air purifiers, Ubreathe Life amplifies air purification by taking into use natural leafy plants like Snake Plant, Spider Plants and Peace Lily.
- It has been claimed that the device can remove particulate matter, gaseous and biological contaminants and increase oxygen levels in indoor conditions.
- According to IIT Ropar director Prof. Rajeev Abuja that Ubreathe Life performed exceptionally well in the testing by National Accreditation Board.
- It has been found that this purifier brought down the Air Quality Index from 311 to 39 in 15 minutes of usage.

- Prof. Ahuja also informed that IIT is capable of producing the product on a large scale.
- The company behind the device claims it to be the world's first Smart Bio-Filter,
- It uses state-of-the-art technology to purify the air in an indoor space.
- How plant-based air purifier works?
- U breathe Life actually has a living, breathing plant as a part of the air purification device.
- The specific plants tested for air purification include Peace Lily, Snake Plant, Spider plant, among others and all have given good results in purifying indoor-air.
- This new purification device not required of water for the plant regularly as it has a built-in water reservoir of 150 ml capacity.
- After installing the device in a room, the air in the room comes in contact with the leaves of the plant and goes to the soil-root zone where maximum pollutants are purified.
- The new technology used in the plant-based purifier is called Urban Munnar Effect.
- It has been found that the breathing roots amplify the phytoremediation process of the plants.
- The purifier effectively improves air quality within a short time of being installed in a room.

Links:-

<https://timesofindia.indiatimes.com/city/ludhiana/iit-ropars-startup-introduces-first-plant-based-air-purifier/articleshow/85856488.cms>

Shipments of Ants, Avocados and Robotic Arm Sent to ISS

Question: Read the following statements carefully and select the correct answer from the code given below them?

- i) On August 29, 2021; Dragon resupply spacecraft of SpaceX launched for resupply mission to ISS.
- ii) It was the SpaceX's 10th mission for NASA in a decade.
- iii) Dragon resupply spacecraft projected into the pace through the Falcon 9 rocket.
- iv) The Girl Scouts sent up with this mission ants, brine shrimp and plants as test subjects.

Which of the above given statement/statements is/are incorrect?

- a) i only b) ii only c) i & ii d) all are correct

Answer: (b)

Related Facts:-

- On August 29, 2021; Dragon resupply spacecraft of private American space company SpaceX, was launched for the International Space Station (ISS).

- The spacecraft has taken away with itself fresh food like avocados, lemons and ice cream for seven astronauts of the International Space Station (ISS).

- It was the SpaceX's 23rd mission for NASA in a decade.
- Dragon resupply spacecraft projected into the pace through the Falcon 9 rocket from Launch Complex 39A at NASA's Kennedy Space Center in Florida.
- It has carried with itself more than 4,800 pounds of science experiments, crew supplies, and spacecraft hardware.
- The Girl Scouts sent up with this mission ants, brine shrimp and plants as test subjects.
- University of Wisconsin-Madison scientists sent up through this mission, seeds from mouse-ear cress, a small flowering weed used in genetic research.
- The mission, had autonomously docked at the station around 11 a.m. on Aug. 30, and will remain at the station for about a month.
- NASA astronauts Megan McArthur and Shane Kimbrough will monitor arrival of the spacecraft.
- The science experiments Dragon will deliver the following:
 - READI FP (REducing Arthritis Dependent Inflammation First Phase)- This experiment evaluates the effects of microgravity and space radiation on the growth of bone tissue.
 - Retinal Diagnostics-It tests whether a small, light-based device can capture images of the retinas of astronauts to document progression of vision problems known as Space-Associated Neuro-Ocular Syndrome (SANS).
 - The Nanoracks-GITAI Robotic Arm- It will demonstrate the microgravity versatility and dexterity of a robot designed by GITAI Japan Inc.
 - MISSE-15 NASA: It is one of a series of investigations on Alpha Space's materials
 - It will be used in testing how the space environment affects the performance and durability of specific materials and components.
 - APEX-08- This experiment examines the role Plants grown under microgravity conditions typically display evidence of stress.
- First-stage booster of Falcon-9:-
 - The first-stage booster used in this mission was landed on newest ocean platform, called A Shortfall of Gravitas of SpaceX, after hoisting the Dragon capsule.

- The booster-recovery vessel was named so, in tribute to the late science fiction writer Iain Banks and his Culture series.
